ABOUT ME

Project Manager with an IT background, pivoting into the world of Cybersecurity! After reigniting my passion for the field, I've been training with TryHackMe, Hack The Box and many more to expand my knowledge.
My 3 Year roadmap:
PJPT ---> CEH ---> CPTS ---> OSCP

LANGUAGES

Serbian native, English proficient

WORK EXPERIENCE

Clearstone
Rotterdam, Netherlands
2021 - Present

SYSTEMS INTEGRATION MANAGER

I coordinate cross-functional teams to deliver projects on time, onboard new clients by guiding them through the integration process, create JSON configurations to map their webshop, and set up API connections for seamless data exchange, ensuring efficiency and a smooth user experience.

Fractum Games LLC
Beverly Hills, USA
2019- 2021

PROJECT MANAGER

Managed projects at a startup gaming studio, running daily standups to keep the team on track and working with founders to create the business plan. Ensured smooth teamwork between design, development, and marketing groups, hired part-time workers, set up meetings with potential sponsors and investors, and mapped business growth strategies and game development phases to ensure milestones were met efficiently.

Amberstratum LDA
Tavira, Portugal
2018 - 2019

JUNIOR PROJECT MANAGER

Assisted in coordinating website development projects by supporting sprint planning, tracking progress and ensuring timely delivery. Collaborated with developers and clients to gather requirements, manage updates, and maintain clear communication. Monitored project milestones, documented processes and contributed to improving workflows.

Freelance,
Remote
2016 - 2018

WEB DEVELOPER

Developed and maintained responsive websites utilizing HTML, CSS and JavaScript, using tools and frameworks including Bootstrap, SASS, jQuery, and NPM to enhance functionality.
